

Natural Products INSIDER is the premier print and digital magazine for marketers, manufacturers and formulators in the dietary supplement, functional food, beverage, personal care, animal nutrition and sports nutrition industries. With 28,000 online subscribers, **INSIDER** is the trusted resource for the natural products industry and the official media for the SupplySide West, SupplySide East, Vitafoods Europe and Vitafoods Asia tradeshows.

INSIDER is directly aligned with these industry-leading events—keeping our audience engaged yearlong. Key topics are addressed before and after our events through in-depth articles, slideshows, podcasts, news and blog posts on the **INSIDER** website, and in print and digital magazines.

SupplySide West is the world's leading ingredient and solutions tradeshow where science & strategy intersect. Every year, SupplySide West brings over 15,000 ingredient buyers and suppliers together from the dietary supplement, beverage, functional food, personal care and sports nutrition industries. SupplySide West is all about the exploration, discovery, innovation and marketing strategy around the development of finished products that drive the global business economy.

SupplySide East is where buyers and sellers connect from the supplement, food & beverage, beauty and sports nutrition industries. At its home in Secaucus, New Jersey this event is attended by more than 2,500 industry decision-makers.

Vitafoods Europe is the leading European sourcing event for ingredients, raw materials, finished products, contract manufacturing and services & equipment for the global nutraceutical market attracting over 16,500 buyers within the European and other territories. Vitafoods Europe explores the most important market trends, regulatory complexities, business challenges and market drivers helping companies meet consumer demand and exceed their business goals.

Vitafoods Asia is the only dedicated nutraceutical event for the functional food, drink and dietary supplement industries in Asia Pacific attracting an international audience of exhibitors and visitors from across the entire region.

Digital Content Marketing Opportunities

Thematic Digital Magazines are designed to help food, beverage, dietary supplement and personal care manufacturers understand issues from formulation and science to regulatory and go-to-market considerations around important categories.

January	February	March
<p>Ayurvedic Botanicals Ayurveda—the science of life—has known for thousands of years of the healing properties of herbs, such as turmeric, ashwagandha, shilajit and others. Explore the history, current innovations, ingredient science and market data of herbs used in Ayurveda. Materials Due: Jan 16</p>	<p>Protein Innovation The protein industry continues to innovate as formulators use different protein types to make well-rounded products for athletes and active consumers. Focus on the different protein types and how they affect consumers, the market and formulation concerns. Materials Due: Jan 31</p> <p>Personalized Nutrition Nutrition has always been personal, but now it's tailored to specific consumer needs as knowledge of epigenetics is expanding. Explain the rise in self-monitoring kits and formulas based on surveys, consumer trends, new product launches and legal claims. Materials Due: Feb 12</p>	<p>Sports Nutrition: Energy Athletes need energy to compete at the top level, or to simply hit the gym after work. Review the latest ingredient research and market trends, including sales data, consumer demands and delivery format innovation. Materials Due: Mar 8</p>
April	May	June
<p>Healthy Aging Consumers want to feel great at every age and understand that nutrition plays a key role in health and wellness throughout a lifetime. Describe the latest research substantiating popular ingredients that support anti-aging and consumer trends that drive market growth. Materials Due: Mar 27</p> <p>Functional Food & Beverage Formulation Solutions Great-tasting foods and beverages that deliver health-promoting ingredients to consumers take careful formulation and flavor-masking consideration. Review the challenges facing functional food and beverage makers, and find solutions to deliver tasty, healthy, successful products. Materials Due: Apr 2</p>	<p>On-the-Go Nutrition Bars, snacks and shots help consumers get their nutrition while they are out and about. While convenience is a major factor, taste and efficacy will also make or break a product. Explore formulation, market data and innovation in the portable nutrition market. Materials Due: Apr 25</p>	<p>Sports Nutrition: The Female Athlete The female athlete is a diverse cohort from elite competitors to weekend warriors, with different nutrition needs depending on the sport. Unveil sports nutrition research conducted in women, effective delivery forms, and formulating and marketing to female athletes. Materials Due: May 29</p>
July	August	September
<p>Digestive Health With recent microbiome research, consumers know that gut health goes beyond how one feels after a meal; it affects brain health, heart health, skin health, sports performance, healthy aging and more. Discuss ingredients that benefit digestion, delivery forms and marketing practices. Materials Due: Jun 25</p> <p>Heart Health A healthy heart is paramount to a quality life and in some cases, life itself. Explore research on ingredients that help the heart, the blood vessels, cholesterol levels and blood pressure, as well as the market, and formulation and marketing tips. Materials Due: Jul 9</p>	<p>Joint Health/Inflammation Consumers of all types are looking to reduce inflammation and ensure joints stay flexible throughout a lifetime. Focus on ingredients that help increase joint health and reduce inflammation, market data and regulatory considerations. Materials Due: Jul 19</p>	<p>Probiotics Probiotics have moved well beyond digestion and immune health, with new research showing their benefits to skin health, heart health, sports nutrition, cognitive health and more. Discuss probiotic types, research, delivery formats and formulation to ensure efficacy. Materials Due: Aug 27</p> <p>Sports Nutrition: Performance Exercise is more than losing weight and improving health; for many, it's about performing at the top of the field. Unveil the latest research on ingredients that help athletes go stronger, harder and faster, and discuss formulation and regulatory considerations. Materials Due: Sep 6</p>
October	November	December
<p>Maternal Nutrition If children are our Future, maternal nutrition is the soothsayer. Moms need good nutrition to help ensure fertility, and a healthy pregnancy and lactation, while raising their children. Discover nutrients for maternal nutrition, consumer trends and innovative products. Materials Due: Oct 4</p>	<p>Curcumin Curcumin/turmeric appears in products addressing inflammation, joint health, immune health, heart health, cognitive health and more. Its wide-ranging benefits underscores the variety of research on this botanical. Explore studies, formulation and market data. Materials Due: Oct 22</p>	<p>Packaging A great product will go nowhere without captivating packaging that effectively communicates a product's attributes. Plus, today's consumers require sustainability. Explain market demands, innovations and legal considerations, such as label claims and slack fill requirements. Materials Due: Nov 27</p>
